

Alice B. Landrum Middle School

2019 – 2020

Rising 7th Grade Elective Course Offering Sheet

The LMS Elective program encourages our students to pursue interests and passions beyond the core curriculum. Keep an open mind when choosing electives, constraints in the master schedule, adjusting class size and enrollment in specialized courses (i.e. Intensive Math, and/or classes with singleton offerings) MAY cause your student to be enrolled in a course other than the ones he/she selects below. Be aware that difficulties may arise, your preference will be used but the rank order is not guaranteed.

Schedule: All students will have 4 core classes PLUS 3 elective course offerings

Elective Courses:

Art

Course Description: Students explore media and techniques used to create a variety of 2-D artwork through developing skills in drawing, painting, printmaking and collage. Students practice, sketch, and manipulate the structural elements of art. ****A studio donation of \$15 provides a sketchbook and expendable materials such as clay, paint and paper.****

Beginning Band - Year long Course No experience required

* Financial commitment required for instruments or instrument rental.*

** Mrs. Sacharski, Band Director, will help determine the students' instrument selection.**

Advanced Band

Course Description: Students with previous band experience build on instrumental technique, music literacy and aesthetic response through rehearsal, performance, and study of a variety of high-quality band literature.

*** Financial commitment required for instruments or instrument rentals. After school practice and competition participation are required. Band selection placement will be determined by Mrs. Sacharski.***

Drama

Course Description: Students learn the basics of the Theatre Arts as pantomime, improvisation, and group scenes. Students also learn the importance of technical theatre and explore the use of such elements as costumes, props, and scenery. In class performances will showcase learned skills.

Engaged Citizenship through Service Learning

Course Description: This course provides an introduction to service-learning and civic responsibility. Academic, personal and career skills needed for effective service-learning project implementation will be taught and applied through structured service projects that meet real school and/or community needs. Students will actively participate in meaningful service-learning experiences of at least 20 hours' duration.

Information & Communications Technology (ICT) Essentials 1 - Year Long Course

Course Description: The purpose of this course is to provide students with the computer, digital and informational technology skills necessary for success in their future academic and occupational goals. In addition to fundamental computer information, the content includes - but is not limited to - digital technologies associated with presentation, and graphics editing software, word processing, internet communications and cybersecurity. Instruction and learning procedures use equipment, materials and technology appropriate to the course content and in accordance with current practices and standards.

LMS Course Intent: This course supports the content of assignments and projects in core academic courses.

Journalism 1

Course Description: The purpose of this course is to enable students to develop fundamental skills in the production of journalism across print, multimedia, web, and broadcast/radio platforms and to become aware of journalism history, careers, ethics use, and management techniques related to the production of journalistic media. Some activities may be required outside of the school day. Students will develop and produce *The Predator*, the Landrum Middle School newspaper, which is distributed to the entire school and updated daily on our website Landrumlinks.com. In addition, this course will introduce students to the world of desktop publishing, including photography, design and layout and writing and reading across different media platforms, Including yearbook design, photography, sales, and production.

M/J Beginning Spanish

Course Description: Students will learn the first half of the content covered in the high school Spanish 1 course.

Physical Education (PE)

Course Description: The purpose is to build on previously acquired knowledge, skills, and values necessary for the implementation and maintenance of a physically active lifestyle. Content provides exposure to a variety of movements, opportunities, and experiences.

Points of emphasis: Team Sports (7th Grade); Comprehensive+ Individual and Dual Sports (8th Grade).

Reading 1 Advanced

Course Description: The course provides the opportunity for avid readers to read books and study other media that is of interest. This is a free reading program that is student led. Students have the freedom to choose texts of interest. Through book talks and digital book reviews students promote readership amongst our community of readers.

STEM (Strong previous test scores & proven success in core courses necessary)

Course Description: STEM is an acronym referring to the academic disciplines of science, technology, engineering and mathematics. The course is for students who have not had STEM before and is a hands-on, interdisciplinary problem-based learning experience. Projects include catapults, balsa bridges, and rockets.

****Opportunities for participating in the afterschool club are also available.****
